RegeniCARE®

The Ultimate Joint Care Formula!

The connective tissue in our bodies requires specific nutrients in order to stay healthy. These nutrients are in short supply in the conventional American diet, and a deficiency can lead to poor healing of the tendons, ligaments and cartilage that comprise our joints. Left unchecked, this nutritional imbalance can negatively impact joint and cartilage tissue while increasing wear and tear activity within the joint itself.

Move with Ease

RegeniCARE® is formulated with Univera's patented compound, Protectin™, shown in double-blind, placebo controlled, human clinical trials to dramatically improve joint comfort and mobility. RegeniCARE® includes a careful formulation of Glucosamine, MSM and Chondroitin, delivering a synergistic formula of natural ingredients that will get you where you need to go... carefree.

RegeniCARE® helps protect joints in four important ways:

- Promotes joint comfort*
- Helps lubricate joints*
- Aids in regenerating and renewing cartilage*
- Promotes flexibility and ease of movement*

Supplement Facts

Serving Size 1 packet (7 grams)
Servings per Container 30

Amount Per Serving	%Daily Value
